ABOUT ME

I am an Electronics Engineering graduate from **Quaid-i-Azam University (QAU), Islamabad**, a leading public research university, with hands-on experience in **artificial intelligence, machine learning, NLP, predictive modeling, and data analytics**. My technical background is strengthened by extensive, internationally recognized certifications in **AI, deep learning, and cloud platforms (AWS, Azure, Google Cloud, IBM)**. Currently, I work as an **IT Support Specialist at AVN Shipping FZE**, managing technical systems and supporting digital operations in an industry environment. Looking ahead, I aim to pursue **Master's and PhD studies** to conduct research in **robotics, machine learning algorithms, and AI ethics**, with the long-term goal of contributing original research and authoring scholarly and educational books in the field of artificial intelligence.
